House & Home's Chocolate-Peanut Wafers

This is such a cheat, but it works perfectly every time. It's almost as if the familiar Eat-More candy bars were made to be turned into these florentine-like crispy confections! Eat them on their own or use them to decorate bowls of ice cream. The wafers will keep for a week in a sealed container.

1 Eat-More candy bar **MAKES 8**

1. Preheat oven to 350°F (180°C). Line a baking sheet with parchment paper.
2. Slice the candy bar into eight 3/4"-wide pieces. Place them at least 3" apart on the baking sheet. Bake on middle rack of the oven for 10 minutes. Remove from oven and allow to cool completely.
